

POWERCONNECT™ from BLACK+DECKER™

- The brilliant battery system that powers all BLACK+DECKER™ 18V cordless products
- Simply swap over the battery pack – then switch on and go
- Saves money and time: no need to buy a battery or charger with each tool or appliance
- Vast range of compatible products across power tools, lawn and garden and home cleaning, all from one trusted brand
- Keep a charged battery to hand at all times for extra efficiency
- Conveniently interchangeable without any effort

April 2020

Whether it's efficient power tools to complete DIY tasks, outdoor products to tidy the garden and lawn, or versatile cleaning devices to spruce up the home – you've got this with BLACK+DECKER™ POWERCONNECT™.

With this cleverly-designed system, there's just one battery pack that powers every product right across the 18V range of cordless appliances and tools. Many BLACK+DECKER products are available to buy 'bare' or battery-free. So there's no need to purchase a battery and charger with every new item, making BLACK+DECKER equipment more cost-effective to own than ever before.

Thanks to the POWERCONNECT system, one battery fits all. Just keep a fully-charged pack handy for all household tasks – no need to go searching in the shed for the matching battery or charger. Simply swap the BLACK+DECKER 18V battery between all compatible products: slide in, switch on and go. It's as easy as that – no time-wasting, no hassle, no stress.

From cleaning the kitchen, to hanging a picture, to shaping up the garden for summer, the huge line-up of trusted and reliable BLACK+DECKER tools and appliances means users never need to look elsewhere, making life easier for every home improvement task, all through the year.

For added convenience, BLACK+DECKER's built-in Lithium-ion technology means the battery's energy will not discharge or fade when stored away. So not only is the equipment ready to work whenever it's needed, but it saves the user considerable effort as they won't need to keep charging in between use. With POWERCONNECT, home owners can power through chores, quickly and efficiently, so there's more time for family and pastimes, and the things they enjoy most in life.

The POWERCONNECT system is compatible across a multitude of BLACK+DECKER products including DIY power tools (drills, drivers, sanders and many more), home appliances such as stick vacuum cleaners and garden equipment including lawn mowers, strimmers and hedge trimmers.
